

In the 123 Ivrit program, there are two types of interactive games:

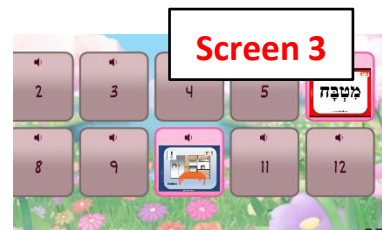

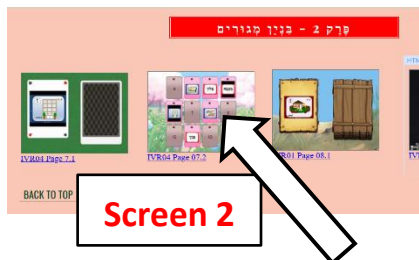

1. **SMART Notebook Platform Games:** These games are integrated into the classroom computer software and operate on the SMART Notebook platform. (see pages 27-28 for more info.)
2. **Online Games:** These games feature valuable Hebrew audio, enhancing learning. They are recommended for their accessibility, allowing sharing with students both in class and at home.

## How to Open Online Games for my Workbook Chapter?

When the main menu of online games opens (refer to page 8 for different ways to access this menu), tap the button corresponding to the chapter you're teaching. (Screen 1)

The games for that chapter will then appear. (Screen 2)

At the bottom of each game, you'll find the page number in the booklet that the game corresponds to.

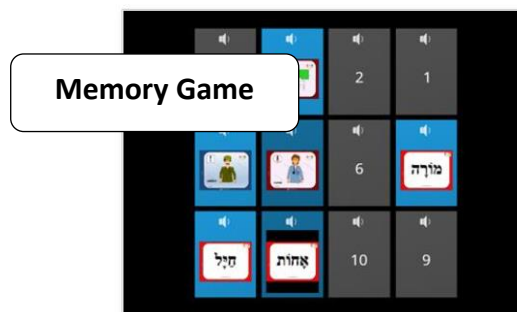

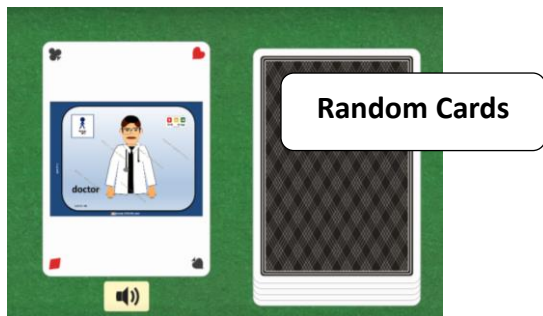

Screen 3 illustrates an online game specifically designed to match the content covered on page 7 of the student's workbook.

## Types of Online Games

In the default online games, there are two main types: the Memory Game and Random Cards.

**Memory Game:** Use this to help students practice words they've already learned in class.

**Random Cards:** This game is best for introducing new vocabulary. When introducing a new card, students will first hear the word in Hebrew, followed by a sentence that includes the new word.

In the games App, each game offers a variety of additional templates you can use. On the next page, you'll learn how to change a game template.

# Online Game: A Step-by-Step Guide

## Teacher Guide: Online Memory Game

### 1. Student Selection:

Choose a student to participate.

### 2. Card Selection:

The student selects two cards by their Hebrew numbers on the screen.

### 3. Reveal & Respond:

1. **With Speaker:** Hebrew text plays aloud; everyone listens until the full sentence is heard.
2. **Without Speaker:** The student reads the Hebrew word aloud.  
Advanced students can create a sentence with it.

### 4. Match Check:

If the cards match, they are removed; if not, they flip back, and the next student plays.

### 5. Team Play:

Optionally divide the class into teams for a competitive twist.

### 6. Repeat:

Continue until all matches are found.

## How Can the Activity's Template Be Switched?

### Switching the Activity Template:

#### 1. Locate the Switch Template Panel:

On the right side of every activity page (Screen 3), you'll find the **Switch Template** panel.

#### 2. View Template Options:

The current template is displayed at the top, with other available options listed below.

#### 3. Select a New Template:

Click on the desired template to switch to it.

## How can you share activities with your students?

1. Start by locating the "**Share**" button positioned at the bottom of the activity (**Screen 3**).
2. Click on the "Share" button to prompt a sharing window to appear.
3. Once the sharing window appears (**Screen 4**), you'll find a variety of options to share the game through different channels.
4. Choose the channel that best suits your needs, whether it's email, or educational platforms such as Google Classroom.
5. Proceed to share the game with your students or participants through the selected channel.

# Ways to Access the Online Games

Here are a few methods for accessing online games tailored to Booklet:

## Access through the student workbook

On the back cover of the booklet, you'll find a scannable code. Using your cell phone to scan it will instantly open the landing page, providing access to the main menu for the games.

## Access through the software of the classroom computer

### 1. Main Screen

When the teacher opens the classroom software, a main screen appears. On this screen, there's a button labeled 'ONLINE GAMES'. Pressing this button will open the landing page for games.

### 2. Screen for learned lesson plan

When the teacher navigates to the designated chapter in the lesson plan, the main screen for that lesson appears. For instance, on the navigation screen for **Chapter 2**, selecting the 'תוספות' button will open a submenu. A click on the 'משחקים' button will open the landing page for games.

## Accessing Through the Website

Please Type "[www.123ivrit.com](http://www.123ivrit.com)" into your web browser

### 1. Games category

to open the list of games, simply click on the 'GAME' button in the main menu bar. Then, from the list of games that appears under the heading 'חלק רביעי', select '123 עברית'.

### 2. Category 123 Ivrit

Click on '123 Ivrit' in the main menu. Then, select the '123 Ivrit Unit 04' submenu. Once you're on the desired page, you'll see a button labeled 'Online Games'.
